The album cover features a circular portrait of Wayne Newton in a suit and tie, smiling. The background is a festive winter scene with snow, evergreen trees, and a small house with a chimney. The title 'MERRY CHRISTMAS TO YOU' is written in a stylized, colorful font around the top of the circular portrait, with 'WAYNE NEWTON' in black text below it. The text 'Vol. 2' is printed to the right of the portrait. At the bottom, there are two columns of track listings, each preceded by a 'PROGRAMA' heading. The RCA logo and '8XC-899' are on the right, and the Capitol logo is on the bottom right. A large '8' logo is on the bottom left, followed by the text 'EIGHT-TRACK CARTRIDGE 3 1/2 IPS'.

ST-642

In addition to ST-640 to ST-642, Capitol had originally planned to release a fourth soundtrack from an IMC movie – that of Catch-22. That soundtrack did not come out. Apparently, they wouldn't release Catch-22 until an IMC soundtrack sold well. And yet, none of the IMC soundtracks would sell well until they released Catch-22.

Label 71: From Green to Red

In the middle of May 1971, Capitol redesigned their album backdrop. The green label, Label 69, featured a purple logo against a light green background. The Capitol logo along with the word **Capitol**, was accompanied by either a “TM” to the right of Capitol or a registered trademark symbol, ® underneath the word.

However, Capitol’s redesign moved the ® logo to the right of the **I** in **Capitol** and changed the color of the label from green to red. Capitol’s plant in Los Angeles used up their green label blanks before changing to red. From May to July 1971, the label closely resembled a “red” version of Label 69.

As summer went by, Capitol decided to remove the white circle/C band from the backdrop, leaving only red. The remaining red labels have no white “C”, and like this, the label style remained until November 1972.

Label 71a

The green label did not disappear entirely, however. Occasional releases from 1971-72 show up with green backdrops, so perhaps Capitol had green label blanks sitting around and decided to use them. These green labels were printed with the ® in its new position.
